

Updating the DG Map

Step 1

Click Show in Explorer or Ctrl + Shift + F to open the folder where everything is kept.

Or

Manually navigate to where the project is saved on your computer.

Step 2

Open the excel file.

Step 3

Add/remove/update data as required.

(See **Getting/Updating the Data**).

Always save when changes have been made (Ctrl + S).

Step 4

Reopen GitHub Desktop and it should have detected that the excel file has been updated.

A message is required where the red box indicates to communicate what has changed.

Then click the commit button or Ctrl + Enter.

Step 5

Commit the changes by clicking Push Origin.

The changes should be visible on the [Tauranga DG Map](#) within 2-5 minutes.
